

JUDGE HARDIN HEARS PROOF IN SCHOOL CASE

Night Sessions of Court Two Days This Week To Help Clear Docket

Civil cases have occupied most of the attention of circuit court this week. Judge Hardin held court two nights, hearing the reading of depositions and arguments on same in the famous school trustee election case of P. M. McRoberts against G. L. Penny. The legality of a number of voters on each side has been attacked, and according to the evidence presented there were illegal votes cast on both sides. The question of striking such votes from the poll books is before Judge Hardin. Final testimony has not yet been concluded nor have arguments been finished so that it is not known just when the decision of the court in the case will be made.

In the damage suit case of Walter Jones against the former livery firm of Baughman & Walter, a jury returned a verdict for the latter on Thursday. Jones asked \$500 damages for injuries alleged to have been sustained when a horse he hired from the defendants, kicked and threw him and his wife out of a buggy on a hill in Casey county.

This is the last week of court and Judge Hardin is endeavoring to clear up as much of the docket as possible before adjournment. Beautiful and appropriate memorial services to the memory of the late Judge James W. Alcorn were held by the bar early in the week, full proceedings of which will be given next week.

LATEST WAR NEWS

The United States cruiser Tennessee, of the launch—probably the latter—was fired upon Wednesday by the Turkish forts at Smyrna. Capt. Benton C. Decker, of the cruiser, reporting the incident to the Navy Department, gave no details of the firing, but added that there had been left for the safety of the American consulate. While awaiting further reports from Capt. Decker and others from Ambassador Morgenthau and Consul General Horton, official here, have two theories. One is that the cruiser may have been sending a guard ashore to protect the consulate and Americans and other foreigners. The other is that Capt. Decker had called upon Consul General Horton who after returning the call, was being taken back to shore by the cruiser's launch which may have been returning after hours of entry pressurized by port officials which are very strict. Before regarding the firing upon the American ship as a hostile act, officials at Washington are inclined to await further reports and the president has called upon the Turkish government for an explanation.

WHO LOST ANY BIRDS?

Chief Carter Looking For Owner of 3 Turkeys and 8 Chickens

Turkey and chicken thieves have been at work around Stanford the past few nights and Chief of Police B. D. Carter is hot on their trails, and planning to make life hard on them. Wednesday night some one stole a big, fine turkey gobbler from Ed Ballard out on the Lancaster pike, and he reported the matter at once to Chief Carter. The officer made a visit to the home of Albert Jones, a Macksville negro, and while he did not find Mr. Ballard's gobbler, he found three other turkeys, for which Jones could give no reasonable accounting. One of them is black, one a rather yellow bird and the other grey. In addition to the turkeys, which are alive, Jones had just finished cleaning about eight chickens of various colors and sizes. The Chief is endeavoring to ascertain who has lost any fowls and is seeking to identify the feathered loot which Jones had accumulated.

MRS. L. D. ROSSEAU KILLED

In Arizona When Ostriches Cause Team to Run Away

News comes from Arizona of the death of Mrs. L. D. Rosseau, near Phoenix, Arizona, in a most unusual and horrible manner. Mr. Rosseau went west from this section of Kentucky and has many friends here who will extend their fullest sympathy. For years he had been a valued subscriber of the I. J. The Phoenix Republican said of the death of Mrs. Rosseau:

"Frightened by a stampede of 300 ostriches being driven along a country road, a horse driven by L. D. Rosseau, a rancher ran away last evening, overturning the buggy and instantly killing Mrs. Rosseau, who with her husband was on her way to attend a wedding. The accident which occurred about 7:30 o'clock last evening, took place one-half mile west of the Cartwright church on the Maricopa road.

The ostriches, which were in charge of fourteen men, were being driven from the Pan-American farm at Chandler to Chandler, when they became unmanageable and stampeded. In spite of efforts to control them they swept down the road at terrific speed, meeting the conveyance containing Mrs. Rosseau and causing the runaway. Mrs. Rosseau was thrown out and her skull was fractured. Her husband escaped with a dislocated arm.

Mrs. Rosseau, whose home was on the Maricopa road a half mile south of the Cartwright church, came to the valley twenty years ago, and is well known in the Cartwright district. She was one of the exhibitors at the state fair, and only yesterday was awarded first prize for her entries. She is survived by her husband and two sons. The funeral will be held from the Cartwright church Saturday morning at 11 o'clock, the Rev. Joel F. Hedgepeth officiating.

Many friends will gladly welcome back and hope that he will soon recover and get into harness again.—Lexington Herald.

LOCAL BANKER AT START OF FEDERAL RESERVE BANK

W. M. Bright, of Stanford, Only Kentucky County Banker Present At Cleveland

Cashier W. M. Bright, of the Lincoln County National Bank and had distinction of being the only country banker from Kentucky present at the opening of the Federal Reserve Bank at Cleveland, Ohio, on the 16th

when the currency system went into effect. Mr. Bright has returned enthused with the government's plan for alleviation of the monetary situation, and believes that in a very short time it is going to work out for wonderful benefit to the people, and especially in the country.

There were nearly four hundred bankers of this district present at Cleveland at the opening, and all attended a banquet given in their honor that evening. The Cleveland Leader thus says on the subject, direct reference being made in the second paragraph to Mr. Bright, who was one of the few visiting bankers to be taken behind the cages.

"Visiting bankers, shareholders of the new federal bank, came in force from all parts of the district. The small country banker was in evidence. He brought in his installment of shares in a handbag and deposited his yellow backs with a smile, a handshake and assurance of cooperation with the officials.

"Closely buttoned in his inside vest pocket, the vice president from the Blue Grass regions of Kentucky was ushered behind the cages to divert himself of his fat roll of gold certificates."

Paper which will be discounted by the banks of the country with the federal reserve bank will be paid for with the new currency. Mr. Bright had hopes of securing some at once for use here, but the full supply had not been received.

It was stated that none of the member banks had intimated that they would take advantage of the privilege to pay in half of their reserves in acceptable paper. The bankers are paying in gold or its equivalent. This is taken, the bankers present said, as a sign that the pressure upon the banks due to the European war has virtually passed, and that good times are ahead and coming fast for this country.

FISCAL COURT NAMES NEW ROAD ENGINEER

Salary Raised to \$1,200 a Year and J. L. McKee Riffe Appointed To Supervise Pikes

The position of Road Engineer, which has been vacant in Lincoln county since E. D. Pennington, resigned several months ago, was filled at a meeting of the Fiscal Court here Wednesday, J. L. McKee Riffe, of Hustonville, being elected for a year beginning January 1st, 1915. The salary of the office was fixed at \$1,200 a year with \$400 a year allowed for assistance, being an increase of \$200 a year over the salary paid Mr. Pennington.

The last legislature placed it within the power of the Fiscal Court of each county to have a Road Engineer or not, as it saw fit, and for a time after the resignation of Mr. Pennington, each magistrate in this county endeavored to look after the roads in his district. After trying that plan for a while, the magistrates deemed it advisable to have an engineer and qualified road man to look after the turnpikes in the county, and so elected Mr. Riffe. It is stated that the dirt roads of the county will be worked under the overseer system however, with warning out of hands as was done this past year, while the Engineer will have charge of only the pikes.

The court at this meeting also allowed claims of those who served as officers of election.

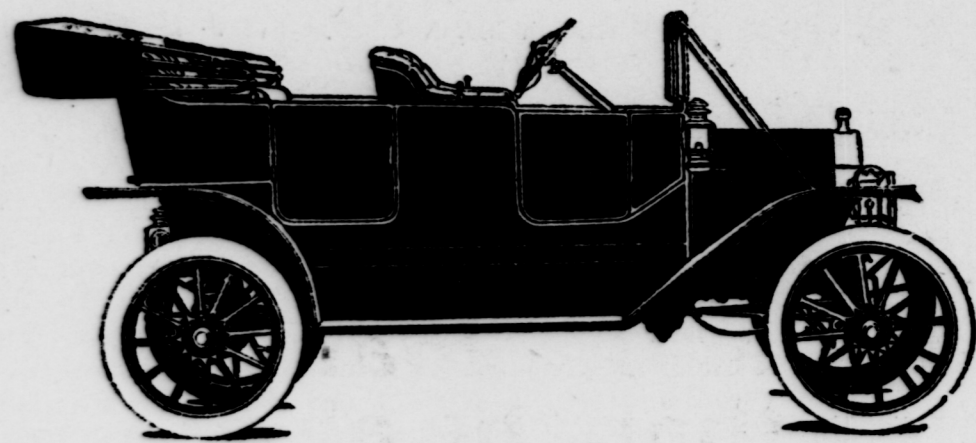

A. C. Muncie, near Waynesburg, was allowed \$10 for stone on the W. F. Sims county road.

Judge Bailey was appointed a committee to have such repairs made to the jail as he may deem necessary.

Mrs. Dock Rogers and Mrs. Rachel Lewis were allowed \$2.50 a month as support from the county.

All four of the magistrates were present and it is said that they acted unanimously on these matters.

HARLTON M. SAUFLEY, Proprietor

\$1 A YEAR STRICTLY IN ADVANCE

Entered at the postoffice at Stanford as second class mail matter.

POLITICAL ANNOUNCEMENTS

The Interior Journal is authorized to announce the following candidates for office, subject to the Democratic primary in August, 1915:

For Circuit Judge

C. A. HARDIN, of Mercer county.
CHAS. C. FOX of Boyle county.
For Commonwealth's Attorney
E. V. PURYEAR, of Boyle county.

Early in the session of the 1914 legislature, the Anti-Saloon League had prepared and offered for passage into law a bill which was designed to make more effective the prohibition against carrying liquor into dry territory, in that the railroads, express companies and other carriers were required to keep an exact record of who received liquor in dry territory, for what purpose it was intended, etc. The legislature was largely dry in the views of its members, and the Anti-Saloon League bill was accepted as it came from that organization and enacted into law. The members felt that the leading temperance men of the state ought to know what they wanted and would offer only such a law as would strengthen the cause of temperance in the state. It now develops that this law contained a "joker," in that a clause in it has been interpreted by the courts to repeal the law of 1906 which prohibited shipment into dry territory of this state of liquor from any other part of the state. The Court of Appeals in an opinion Wednesday said that the new law makes it perfectly legal to ship liquor from one point in Kentucky to another point, no matter whether the county of destination is dry or not. Now we know that the action of the General Assembly in this matter was in perfectly good faith. It took the Anti-Saloon League's bill and passed it practically without amendment, for it believed that the Anti-Saloon League knew what it was doing. It develops now that the Anti-Saloon League bill simply played into the hands of Kentucky liquor dealers who previously were unable to ship liquor into dry territory in this state. No one is to be blamed but the Anti-Saloon League.

Certain so-called statesmen are jumping into print with declarations that the agitation for state-wide prohibition and woman suffrage must be stopped, and that they may offer themselves as candidates to assist in the estoppel. Perhaps the job may be harder than they imagine. The way we see them, neither will be stopped until the people have had a vote on them. The next legislature will probably submit one of these questions and possibly both to a vote of the people. There's a very wide difference between favorable action on these matters by a legislature and the vote of the people. We believe that any question of public importance in which a sufficient number of citizens are interested should be submitted to the people for a vote, if wanted, and thus put the proposition directly up to the people for their say. The question of adoption or rejection is another matter. Let the people vote on any question that they may desire.

A Sufferer From Rheumatism For 25 Years Tells What the Great Andes' Medicines Did For Him

The Montgomery (Ala.) Advertiser says:

When anyone has suffered from an ailment for 20 or 30 years the disease has become chronic and in many cases incurable, especially so in rheumatism, as it is well known facts that there are few medicines that will eliminate uric acid entirely from the system. Ande's Great Prescription, where properly used, will positively remove all uric acid from the system by its action on the kidneys.

And where the joints have become stiff or swollen Ande's Oil used externally with the great prescription will cure any case that is curable. Mr. J. W. H. Jennings of 502 Columbus street, has been a chronic sufferer from rheumatism for 25 or

30 years. He says: "I have spent many dollars for medicine that has done me no good whatever. I have been using Ande's Prescription and Oil about two weeks and it has done me more real good than any medicine I have ever taken."

Ande's Prescription cures all from a Kidney, Liver and Bladder trouble. Weak Back, Pains over Kidney, having frequently desire to empty the bladder, skin yellow or sallow, losing flesh, appetite poor, tongue coated, bad taste in mouth on arising, break spells, dizzy and lightness of the head, shortness of breath, palpitation of the heart, bloating and fullness after meals, constipated, sick, nervous headaches and hot flashes. Price Ande's Great Prescription, \$1.00 per bottle, 2 for \$2.50, 6 for \$5.00.

Order by mail if you can't call

All directions and information enclosed with each shipment. Also the valuable book, "Health and Happiness" sent and given to every caller free.

Ande's Great Oil has no equal for curing deafness. Mr. H. T. Crawford, of 329 South Holt St. 65 years of age, has been hard of hearing for a number of years. Last night before an audience of 4,000 he was made to understand anything 40 feet away. Ringing, roaring head noises, buzzing sounds contracting cold early, ears stopped up, wax dry in ear, all these troubles can be overcome by using Ande's Oil in and around the ear, and the Great Prescription must be used internally. Price of the Great Oil, 50 cents per bottle, 3 for \$1.25.

These medicines are on sale in Stanford by Shugars' Drug Store.

COLDS

An up-to-date remedy for colds. That is what Peruna is. In successful use over 50 years.

Colds are caught in many ways: illy ventilated rooms; rooms that have direct draughts; crowded rooms; damp houses; stuffy school rooms; offices illy heated.

A dose of Peruna at the right time, at the first symptom of cold, before the bones begin to ache, before the sore throat manifests itself, or the cough, or the discharge from the nose, just a dose or two of Peruna before these symptoms begin is generally sufficient. But after the cold is once established with the above symptoms prominent, a bottle of Peruna, or maybe two, will be necessary.

"For several years I have been troubled with colds at each change of season. I took Peruna and have not been troubled with the slightest cold this entire season." Mr. Harry Fisher, 1938 Mosher St., Baltimore, Md.

"I give the children Peruna if they have a cold, and it always relieves them." Mrs. I. D. Hayes, 1937 Druid Hill Ave., Baltimore, Md.

"When I feel a cold coming on I take a little Peruna, and it does me good." Mr. Charles S. May, 12 Water St., Ossining, N. Y.

"No family should ever be without Peruna, for it is an unfailing cure for colds." Mrs. M. F. Jones, Burns Springs, Ky.

HOW TO SUCCEED
During the last few years, conditions in all lines of business, even professional life, have changed so completely that every man is waking up to the fact that in order to win success he must specialize and learn to do some one thing and do it well.

So it is with any article that is sold to the people. It must have genuine merit or no amount of advertising will maintain a demand for the article.

For many years druggists have watched with much interest the remarkable record maintained by Dr. Kilmer's Swamp-Root, the great Kidney, Liver and Bladder Remedy.

From the very beginning the proprietors had so much confidence in it that they invited everyone to test it. It is a physician's prescription.

They have on file thousands of unsolicited letters received from former sufferers who claim they are now enjoying good health as a result of its use.

However, if you wish first to try a sample bottle, address Dr. Kilmer & Co., Binghamton, N. Y., enclosing ten cents and mention this paper. They will promptly forward you a sample bottle by Parcel Post.

Regular sizes for sale at all druggists—fifty cents and one-dollar.

TOO MANY CHILDREN
are under-size, under-weight with pinched faces and poor blood; they do not complain but appetite lags, they have no ambition and do not progress.

Such children need the rich medicinal nourishment in Scott's Emulsion above everything else; its pure cod liver oil contains nature's own blood-forming, flesh-building fats which quickly show in rosy cheeks, better appetite, firm flesh and sturdy frames.

If your children are languid, tired when rising, catch cold easily or find their studies difficult, give them Scott's Emulsion; it supplies the very food elements that their systems lack.

Scott's Emulsion contains no alcohol and is so good for growing children it's a pity to keep it from them.

Your suffering will stop at once like magic.

I Am Free—You Can Be Free

My catarrh was filthy and loathsome. It made me ill. It dulled my mind. It undermined my health and was weakening my will. The hawking, coughing, spitting made me obnoxious to all, and my foul breath and disgusting habits made even my loved ones avoid me secretly. My delight in life was dulled and my faculties impaired. I knew that in time it would bring me to an untimely grave, because every moment of the day and night it was slowly yet surely sapping my vitality.

But I found a cure, and I am ready to tell you about it FREE. Write me promptly.

RISK JUST ONE CENT

Send no money. Just your name and address on a postal card. Say: "Dear Sam Katz: Please tell me how you cured your catarrh and how I can cure mine." That's all you need to say. I will understand, and will write you with complete information. FREE, at once. No not delay. Send postal card or write me a letter today. Don't think of turning this page until you have asked for this wonderful treatment that can do for you what it has done for me.

Cattle Disease in Hardin County

Eastern markets.

Twenty-one of the foot and mouth disease were discovered in a herd of cattle owned by P. H. Hecker, near Glendale, Hardin county Tuesday, and Commissioner John W. Newman immediately quarantined the county against all other parts of the State. The disease is now prevalent in three counties of Kentucky, Hardin, Ballard and Henry and Commissioner Newman is fearful that the end is not yet. Reports have reached him of suspicious illnesses among cattle in various other parts of the State. The outlook is anything but encouraging, and calls for the observance of the strictest quarantine.

With a view to relieving stock dealers, who have on their hands a lot of fat cattle contracted for by Eastern buyers, which cannot be shipped because of the Federal quarantine against Kentucky, the Kentucky Livestock Sanitary Board adopted a resolution calling upon the Federal authorities to so modify the quarantine so as to permit of the shipment of cattle outside the danger zone in Kentucky to various

ALBIA

Nov. 14.—Dear Editor:—After some delay I will try to write a letter again to the "Old I. J." I am always glad to read the I. J. because it is the best farm paper in any county of Kentucky.

I am very glad to notice in the Buck Creek items that the "tussle" over and school has begun. I don't see why they wish to call it Buck Creek School, because that is a very old name. Since they have a new district, a new house, a new trustee, a new teacher, a new stove, new seats and almost a new set of pupils—since everything is new, I insist on giving it a new name to harmonize with the environment. The district is certainly indebted to someone for their faithful service in this noble work of creating a new school district aside from surrounding opposition. I think the naming of this school should go to the two generous and faithful citizens of the district.

The truth is about to be manifested of the old saying "you can fool all the people part of the time, part of the people all the time, but you cannot fool all the people all the time." Now the people are all coming to the light and seeing the sound principles which were adopted and used by their forefathers like Jefferson and Washington.

AGAINST PARDON OF YOUTSEY

Correspondent in the West End Enters Strong Protest

Kidd's Store, Nov. 20.

Your correspondent has received reprints of several editorials urging pardon of Henry E. Youtsey. The main reason of all is not that his guilt is a matter of doubt or his sentence unmerited but because all his brutal accomplices have gone scot-free of other punishment than that of remorse from which there is little or no succor for murderers. There is not a mitigating motive for Youtsey's crime. It was not in protection of his or another's life that Wm Goebel was assassinated. He is confessedly one of a band of calculating, cold-blooded cowardly conspirators, who deliberately planned an ambush from which their victim was unsuspectingly shot down as remorselessly as is a bullock in the shambles.

Civil laws must be enforced or civil government is a farce.

Criminal laws should be deterrent to the unlawfully disposed degenerates. Our laws are good, but little more than farcical in practice, where technicalities quibble, bribes and pardons cheat justice so often. It is a travesty in law and logic to recommend pardon of a confessed criminal because his accomplices have escaped their just punishment, through complaisance of an executive whose sincerity of professed promptings is not even problematic in minds of many honest, possibly ignorant, good people. Charity and mercy grace the top of the ladder of Christian virtues, and good women, especially mothers, are always in the fore of every good work.

The great and good God they all worship—creator and autocrat of the universe—enthroned in his audience chamber assented to the declaration that "all a man hath will he give for his life."

Of all earth's treasures human life is the richest, dearest and Henry Youtsey confesses murder. As a Christian he must feel that his Savior, is undeservingly merciful in sparing his life that he may make some atonement in philanthropy which should have compelled preservation rather than assassination of a fellow-being.

Youtsey recklessly took his chances of gain by deliberately defying the criminal law and murdering a man, Justice captured and condemned him, and it will be injustice to pardon him.

The shame to Kentucky is not that Henry Youtsey is expiating his tort crime, but that politics is so dirty that murder is condoned by the (elect) and applauded by party affiliates.

Let me repeat that to pardon Youtsey is to add to the premium Augustus E. Willson has put on crime by pardoning his accomplices—so many lawyers say, and we laymen cannot controvert.
